EXPERIENCE

Zapplogics Solutions

09/2024- Present

UI/UX Designer

My responsibilities include conducting user research to deeply understand user needs, behaviors, and pain points. I create wireframes, prototypes, and user flows to visualize ideas and design seamless, intuitive interfaces.

I collaborate closely with product managers, developers, and other team members to bring designs to life while maintaining a strong user-centric approach.

Adri IT SOLUTIONS | Vadodara

05/2023 - 08/2024

UI/UX Designer

As a UI/UX Designer, I planned and conducted user research, developed user flows, and crafted UX strategies. I worked on establishing brand directions and designed both low-fidelity and high-fidelity mockups along with interactive prototypes. I also created grid systems and defined type scales to ensure consistency across mobile and web applications.

Quix Solution PVT LTD | Vadodara

08/2021 - 04/2023

UI&UX Designer | Graphic Designer

As a Graphic Designer or UI & UX Designer I designed a Social Media Post Like a Festival, Hiring or any type of post or logo in Graphic Design or Create a Website UI or Mobile Application.

As a Graphic Designer or Wordpress Designer I worked to Create a Social Media Post or Create one website of Sceptical Frames using to wordpress

PROJECT / WORK

Meal Planner App

Meal Mate Is a meal planning and grocery management app designed to help users effortlessly organize their meals With intuitive meal scheduling, smart grocery lists, and personalized recipe suggestions, this app ensures a hassle-free experience, reducing food waste and saving time. Users can plan nutritious meals & track ingredients Whether preparing daily meals or managing a weekly menu, this all-in-one solution makes meal planning more efficient and enjoyable, allowing users to focus on healthy eating and stress-free cooking.

Sports Rental Equipment App

The Sports Rental Equipment App aims to provide a seamless platform for individuals and sports teams to rent a wide range of sports equipment. The app will enable users to browse, book, and manage their rental equipment for various sports activities, whether for recreational use, practice sessions, or events. It will cater to both casual players and professional teams, offering a convenient and efficient way to access quality sports gear.

Covax

Covax refers to a workforce management software platform designed to assist businesses in managing their employees' scheduling, time tracking, and other related tasks. Deputy provides features such as employee scheduling, time and attendance tracking, task management, and communication tools. It is particularly popular in industries with shift-based work, such as retail, hospitality, healthcare, and other service-oriented sectors.

Stadium Management App

The Stadium Management App is designed to streamline the operational management of stadiums, providing administrators with tools to efficiently handle bookings, maintenance, and customer experiences. The app aims to enhance the day-to-day operations of stadiums, improve the user experience for event-goers, and provide seamless integration of services such as ticketing, seating, and facilities management.
